NORTH MAIN ST.

1936 PRICE LIST

FRANKLIN, N. H.

Everything **POSTPAID** in U. S. unless otherwise noted, if your order totals \$1 or over.

MY BULBS ARE FREE FROM DISEASE AND THRIPS!

Read carefully! Last year I tried to make it clear that bulbs listed at the dozen rate or over must be of **ONE VARIETY** to take that rate. One bulb each of 12 different kinds cannot be separately labeled and sold at the dozen rate. If you want 12 different kinds unlabeled in one bag you can have them at the dozen rate if from one group all listed at the same price.

ORDER EARLY and you can be assured of having your order filled completely and not be disappointed. Bulbs will be held and shipped on any date wanted. I will acknowledge your order as received. Unless requested do not like to ship mail orders before March 1st, owing to cold temperatures especially if you live on a Rural Route. This is much earlier than most customers can plant them unless you live in the Southern States. 25% deposit will hold bulbs for you until May 1st, 1936 when they can be shipped C. O. D. for the balance or you can remit before that date.

Do not think because my prices are low that my bulbs are not high grade. I keep my expenses down, avoid lists adorned with colored pictures which you would have to pay for when buying bulbs. If you have never grown any *Gladiolus* why not try a few this year. You will be delighted with their easy culture and amazing beauty for a cut flower, often lasting nearly two weeks if cut as the first bud is opening.

SIZE OF BULBS

Many growers advertise *gladiolus* bulbs as good blooming size, etc., but do not state the exact size which gives them a chance to sell a lot of small or medium size bulbs at a price equal to that charged by me for large bulbs. Large bulbs make the largest flower spikes, bloom earlier and cost about twice as much to pay the postage on as the medium size. I do not offer small bulbs this year as most of my customers want flowers the same year they plant the bulbs. Can furnish bulblets from most of the varieties listed in the Group lots for 10c for a generous package but cannot guarantee germination. Large bulbs will be 1¼ inches or over in diameter, medium bulbs are from ¾ of an inch up to 1¼ inch in diameter, averaging one inch. When you order from me you know what size to expect; anyway if the bulbs do not suit you when they arrive you can return them and get your money back. I guarantee bulbs to be true to name but cannot guarantee growth or production when grown by someone else. No honest grower can. If your neighbor has Thrips in his garden and they fly into yours, do not blame me for that. Thrips can be controlled and eliminated. It's only a matter of cooperation among those who plant *gladiolus*. My bulbs are all treated before shipping as a preventive measure.

I wish to thank my many friends and customers, who gave me their liberal patronage last year. I have received kind words of praise for the bulbs purchased from me from a large number of you, my friends. I have not become rich selling bulbs from a financial standpoint, but I am rich in the many new friends and acquaintances I have made in the past 15 years I have been growing and selling *Gladiolus* Bulbs. It is surprising the number of visitors I have at the gardens during the blooming season. Some have come from as far away as New Jersey, and many from all over New England. Come again this year as many times as you can. You are welcome whether you buy or not.

Why not join The New England *Gladiolus* Society? Their Year Book is worth more than the \$1 it costs to join. Send \$1 to Rev. G. Edgar Folk, Secretary, Oakdale, Mass., for enrollment in this fine society.

SPECIAL GLADHAVEN ASSORTMENT, OR KALEIDOSCOPE OF COLORS

The assortment I sold last year under this head proved most satisfactory to all who bought them. This collection is even better for 1936, contains more varieties than ever before. To get the best results from a collection of this kind they should be planted early in May. The reason for this is that it contains some very early blooming kinds as well as mid-season and late ones, so if planted early in May will begin blooming in July and continue up till frost gets the last ones. This will give you cut flowers over a long period whereas if they were in bloom at one time they would soon be gone by. About all colors are represented in this collection. You would expect to pay at least \$4 a hundred for this quality, but the truth is I have a lot that got accidentally mixed and cannot sell them under name so must sacrifice on them in an assortment. So I am offering them while they last at the ridiculous price of only: Large bulbs 35c a dozen, 25 bulbs for 60c, 50 bulbs \$1.10, 100 bulbs \$2.00. Medium Bulbs, 20c doz., 25 for 35c, 50 for 65c, 100 for \$1.00. 150 assorted bulblets 10c. Postpaid in the U. S. if your order totals \$1 or over. I cannot afford to pay postage on orders for less. Order early on this collection. Satisfaction assured.

GLADHAVEN DAHLIA ASSORTMENT

12 Tubers all different and of good quality, made up of varieties that sell from 15c to 50c each. Worth more than I am asking for them. Unlabeled. Postpaid for only \$1.50. A big value in Dahlias of the large flowered kinds. If interested in Dahlias, send for my list of the new fancy varieties which I sell at the lowest market prices and guarantee them to be true to name.

SPECIAL LOW PRICES ON GLADIOLUS BULBS BY THE HUNDRED

Not prepaid, F. O. B. Franklin. Not less than 100 at these prices.

| | Large Bulbs | Medium Bulbs | | Large Bulbs | Medium Bulbs |
|--------------------------|-------------|--------------|--------------------------------|-------------|--------------|
| Albania | no large | \$.70 | Kunderd's Yellow Wonder | 1.25 | .80 |

There are a few other varieties in Groups No. 1 and No. 2 on which I can quote a low price in lots of 100 f.o.b. Franklin. There are none in Group No. 3 and Choice List on which I can quote you a lower price than that given. Orders from this list will not count on Premium offer for Binoculars.

GENUINE LEATHER COVERED BINOCULARS

Just what you want for nature studies, especially observing birds and their habits. Fine for Boy Scouts. Matched scientific lenses, ground and polished on the same machines and in same manner as lenses for fine expensive scientific instruments, giving a combination of power, detail, eye ease and style hitherto unknown in glasses priced under \$10. 15 ligne, 3 power, 30mm objectives, 15mm oculars, 5 in. wide, 3½ in. high, opens to over 4 in., finished in telephone black enamel, covered with genuine top grain leather, bakelite adjusting screw, brass tubes and rod, with neck band. Comes complete with real leather carrying case and shoulder straps. A fortunate buy enables me to offer these fine glasses to my customers for only \$2.49 post paid.

SPECIAL PREMIUM OFFER

I will give one pair of these nice glasses with a \$10 order selected from Groups No. 1 or No. 2. Orders for the Kaleidoscope mixture may also be included. You can easily secure from your friends and neighbors (at my very low prices) orders enough to get one of these valuable glasses without cost to yourself. Remember the order must be made up of Gladiolus bulbs listed in Groups No. 1 and No. 2 or the Mixture and all shipped at one time to one address. Would suggest that you order early as I can only fill orders on this particular item while present stock lasts.

I sell, use and recommend VIGORO as one of the highest quality and most completely balanced fertilizers for garden use. Sold in 100 pound bags, 10, 5 and 1 pound packages at the lowest price f. o. b. the gardens. Ask for prices.
